

Darwin

Design: Edvin Klasson

Darwin is a quite simple but versatile and flexible furniture system with superb seating comfort. The model is both soft to look at, touch and sit in, and with that invites to well-being. Seat cushions and tables can be combined with low and high backs, as well as armrests, which together opens for countless furniture variants and configurations, where parts can easily be repaired or replaced. This is how Darwin's lifetime is distributed among the furniture's individual parts.

Recycling

All steel parts are recyclable. During surface treatment, degreasing with alkaline washing takes place. After separation, the oil goes for destruction. Varnishing is done electrostatically with epoxy powder that gives minimal pollution. The plastic parts used are recyclable. All padding and frames are made of foam completely without freons. Only water-based and solvent free adhesives and hot melt adhesives are used.
