Design: Sverre Uhnger

Modular sofa system characterized by simple lines and soft edges. The backrest and the armrests float over the seat, giving the design a light look. The profile of the seat and the back is rounded to increase comfort while emphasizing the sofa's shape and identity. The system is based on 1-, 2-, and 3-seater pallets and arcs that can be delivered with back and armrests, in addition to corner elements.

Recycling

All steel parts are recyclable. During surface treatment, degreasing with alkaline washing takes place. After separation, the oil goes for destruction. Varnishing is done electrostatically with epoxy powder that gives minimal pollution. The plastic parts used are recyclable. All padding and frames are made of foam completely without freons. Only water-based and solvent free adhesives and hot melt adhesives are used.
