

v. 1.0

Dapple

Design: Edvin Klasson

Storage model characterized by the contrast between the solid cabinets and the thin, rigid chassis. Doors with "buttons" or solid color. Cool coat stand.

Offers matching seating elements and tables in several sizes.

Construction

Chassis in powder coated steel tubes.

Cabinets in MDF with HPL surface.

Legs

Chassis in black powder coated steel. Other colors available upon request.

Hard plastic pads.

Mounting

Chassis must be mounted on the cabinets.

Recycling

All steel parts are recyclable. During surface treatment, degreasing with alkaline washing takes place. After separation, the oil goes for destruction. Varnishing is done electrostatically with epoxy powder that gives minimal pollution. The plastic parts used are recyclable. All padding and frames are made of foam completely without freons. Only water-based and solvent free adhesives and hot melt adhesives are used.
