

Mine

Design: Sigurd Strøm

Mine is based on a modular platform, where the modules' physical scope and their construction possibilities offer countless possibilities. The series has good seating comfort, where the elements have a rounded expression and slim feel with its horizontal lines. The series consists of pallet, units with low, medium and high backs, with the option of a gap between seat and back.

Use highest price group if more than one type of fabric.

When providing own fabric, use Price Group A prices.

When delivered in leather, there will be seams in the seat and back.

Pattern customization must be notified. Longer delivery time must be expected.

Fabric used in the length direction.

Mounting

Armrest / sides must be mounted.

Legs and connections must be mounted.

Recycling

All steel parts are recyclable. During surface treatment, degreasing with alkaline washing takes place. After separation, the oil goes for destruction. Varnishing is done electrostatically with epoxy powder that gives minimal pollution. The plastic parts used are recyclable. All padding and frames are made of foam completely without freons. Only water-based and solvent free adhesives and hot melt adhesives are used.
